15 minutes Can Save You \$75,000+

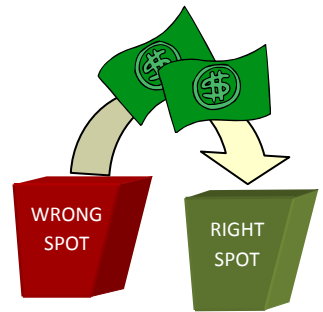

Have you felt, lately, as if you were being inundated with insurance commercials? We have! And we noticed: Many of them focus on one single theme: MONEY.

But the (highly advertised) money-saving plan could leave your home, savings, and even your future income exposed if you are hit with a big claim.

How? Imagine being in stop-and-go traffic. Things speed up. So do you. You are distracted for a second – and traffic has stopped again. You hit the Lexus SUV in front of you, who hits the BMW in front of him. *And it's all your fault.* A state-minimum \$10,000 policy won't take you far. "Saving money" just *cost* you \$75,000 or more!

It's easy to spend your insurance money in the wrong spot. The trick with insurance is to **customize your policy so that your money is spent in the right place!** Spend 15 minutes with us and we'll help you save money & increase protection.

Teen Driver? Renting a Car? Back To School? Get The Facts!

There are lots of questions that can pop up and make you wonder... *Is this covered?* Especially in summer! If you have one of the following situations coming up, simply call **425.379.9200 to request a hassle-free Fact Sheet:**
